## WELCOME TO CORVETTES AT CARLISLE PRESENTED BY CORVETTE AMERICA

### FROM THE EVENT MANAGER

LANCE MILLER

Welcome to the 35th edition of Corvettes at Carlisle! Corvettes at Carlisle is what it is today because of the passion my father, Chip Miller, had about the Corvette and the people behind the wheel. I share his passion and truly feel that it's all about the people. Thank you for spending your weekend with us. We hope you have a terrific experience. Some event highlights include:

- **Vendors:** Visit the world's largest Corvette swap and talk with all the people who know anything and everything Corvette. They are the lifeline to our hobby and we're thankful for their support.
- **Manufacturers Midway:** See some of the latest and greatest trends and check out the exhaust and performance upgrade installations.
- **Team Chevrolet:** Talk directly with the people who build the car! Visit their tent on the Midway.
- **Chip's Choice:** See Dick Guldstrand and John Greenwood Corvettes.
- **NCRS Gallery:** See the best of the best under a tent on the Fun Field.
- **NCCC Concours:** Intense judged competition. Stop by and learn more.
- **1966 Reunion:** Celebrating the 50th Anniversary
- **Autocross:** Fun to watch and even more fun to participate. (If I had more time, I'd be there all day!)
- **The People:** Take this opportunity to mingle with your fellow Corvette enthusiasts. There are some incredible people here and, personally, I enjoy getting to know you.

ELLA CORVETTE & LANCE MILLER

This year has been awesome in many ways – life, cars and most of all good health! My daughter, Ella, and I have been having a blast driving in Corvettes. We're grateful Mom allows us to enjoy one another during these events, drives, etc. One really cute memory I recall from this year was taking her to the Daddy/Daughter Dance for her school. We took a new Corvette to the dance (the picture above is from that evening) and there was a line when we arrived. As always, Ella and I played back and forth with one another while waiting. A little girl in front of us, with her father next to her, said "Was that your Daddy's Corvette in the parking lot?" I watched Ella's face light up as she said "Yes, yes it is!" I realized at that moment that Ella, like her Dad, took this incredible machine for granted. We all do every now and then, but occasionally it's nice

to have a small taste of reality to remind us how fortunate we are to enjoy such an amazing automobile made by Chevrolet.

The latest trend my daughter does each time we visit Me-Mom Judy's house is asking if she can drive "her Corvette." I'm in high hopes she can drive her 3.5hp Corvette during the event this weekend a bit. If you see a seven-year-old redhead running around and/or myself, please be sure to say hello! Can you tell I love this little girl more than words could ever describe? I also love these events because of the people that attend. It's a great way to meet so many new enthusiasts each year.

Enough about myself and my family. The all-new Corvette Grand Sport is over-the-top. Kudos goes out to the Corvette team for always taking a step forward in making our beloved cars better each year. I'm eager to get my hands on one!

The 20th Anniversary for Grand Sports is a tough act to follow, but in 2017 our main focus will be on 1967 Corvettes – 50 years later! Can you believe it? We'll have an amazing display on our showfield of '67s but it won't stop there. Chip's Choice will be featuring L88 Corvettes. Considering the first 427ci L88 Corvette was sold to the public in 1967, we thought it would be appropriate to focus on

these engines and cars for their 50th Anniversary! Expect to see some phenomenal and extremely rare and expensive L88 Corvettes. If you own one, please send an email to me for consideration in the display. (lancem@carlisleevents.com)

In 2018, we'll host our 50th Anniversary display for '68 Corvettes, but it won't stop there! We plan on hosting a mixture of themes including heavily modified Corvettes. These cars will include Vette Rods all the way to serious performance and design enhanced. If you have a Corvette that fits the bill, let me know! (Send an email to lancem@carlisleevents.com)

Our team works incredibly hard each year to ensure all participants that attend our events leaves with a big smile and tell their friends about their incredible trip to Corvettes at Carlisle. In fact, we take great pride in what our participants have to say about our events – good or bad; we want to hear it all. It's the only way we can improve our events. Please consider taking our online survey to help us continue making our event better for you and your friends (www.carlisleevents.com).

Once again, we appreciate you spending the weekend with us during Corvettes at Carlisle!

*Lance Miller*

## 2015 BEAUTY AND THE BEAST WINNER: PATRICIA DOERFLER

Congratulations to Patricia Doerfler for winning the 2015 Beauty and the Beast contest with her 2003 50th Anniversary convertible Corvette!

Her love for Corvettes started as a child when her father would take her to car shows. She remembers seeing a 1970's era Corvette and hearing it "purr at idle" when the owner started it. It was then that Patricia knew one day she would own a Corvette of her own.

Since owning her 50th Anniversary convertible, her love for Corvettes has only continued to grow. Patricia looks forward to Corvettes at Carlisle every year.

REGISTER AT GUEST SERVICES BY 3:30 PM SATURDAY

What could be better than a relaxing three-day stay at a resort in western Nevada? How about taking a Corvette onto a race course with instruction by professional drivers? You can do that if you are the lucky winner of this weekend's giveaway.\* One person will be awarded a \$500 Visa gift card, given the chance to spend three nights at the Spring Mountain Motor Resort and Country Club in Pahrump, Nevada and have access to the Level 1 Ron Fellow's Performance Driving School.

Call it High Speed 101 if you'd like, but this Level 1 deal is really open to drivers of all skill sets. If you want to know what you'll experience, keep reading...because you'll be in for the experience of a lifetime if you win this prize.

**If you are a registered vendor, Fun Field or NCCC participant, you are already entered to win.**

**First, what are you driving?** How about the all new C7 Stingray Corvette. It won't be a basic C7 either as it comes with the Z51 option package.

**What about the sessions?** The Level 1 driving school is as much educational as it is hands-on fun. The curriculum focuses on developing your car control skills and performance driving techniques. And, so you don't feel alone or lost, there is a two-way radio. This keeps you in constant contact with the instructor.

**It's one thing to drive fast on a dry surface, but what about wet roads?** This curriculum also includes dynamic car control exercises for wet surfaces, handling on oval courses versus road courses, and helps improve your driving skills visually. After all, you need to see what's in front of you at all times as well as what is beside and behind you too. There is instruction on cornering and you'll get to lead and follow the instructor while also getting open track time.

Mind-speed and decision-making are key elements in the high performance world. All car control exercises and on-track training will help you improve your ability to process information quickly and accurately, resulting in a better coordination of eyes, hands and feet as well as improved speed and accuracy.

When you are done with the R&R&R (rest, relaxation and racing), you'll find yourself a more knowledgeable and confident performance driver.

\*Approximate Retail Value \$4,275, air fare not included.

### JERRY PALMER

RETIRED CORVETTE DESIGNER

Jerry Palmer is a 2000 inductee into the Corvette Hall of Fame and worked at one time for GM as its Executive Director of Design. Palmer was largely responsible for the design of the four rotor Aerovette, which he notes was the most challenging design of his career. He designed the Fourth Generation Corvette and in 1974, was appointed as Chief Designer in the Chevrolet III Studio and began working on the design and advanced aerodynamics that became the 1984 Corvette. Jerry was such a dedicated designer at GM that he was involved, in one respect or another, on the styling of every Corvette from 1974 up to the 2006 Z06 model.

Stop by and talk shop with Jerry and meet a key piece of Corvette's history!

RETIRED CORVETTE PLANT MANAGER

Inducted into the National Corvette Hall of Fame in 2013, we are pleased to welcome Hall of Famer Wil Cooksey. Cooksey has the record of being the longest running Corvette Plant Manager with 15 years on the job. During his tenure, the Corvette community saw eight Special Edition and nine Indy 500 Pace Car Corvettes, plus the introduction of the Corvette Museum Delivery Experience option for buyers of new Corvettes. With a career that started in 1972 as an assistant professor in engineering at GMI, in Flint, MI, Wil was promoted to Plant Manager at the Bowling Green, KY Corvette assembly plant in 1993. There, he was responsible for the production of not only Corvettes, but Cadillac's Corvette-based XLR two-seater roadster. He's also done one of the most memorable burnouts in Corvettes at Carlisle history!

EXECUTIVE CHIEF ENGINEER

Tadge is the Executive Chief Engineer for our beloved Corvette and so much more! He's personally seen the ups and downs within Chevrolet and he's proven to be an amazing leader for the Corvette team. The Corvettes that Tadge had his hands on have been a better car for the end-users. He's a great guy and I'd encourage you to take the time to stop in the Team Chevrolet tent on the Midway and talk to him. The C7 Corvette continues to progress with his leadership and team. I have no doubt the all-new Corvette will be better than any of us could ever expect.

Tadge, you're a major asset to our hobby and a hero to me! Keep up the great work. – Lance Miller

### HARLAN CHARLES

PRODUCT MANAGER

Harlan is the Corvette Product Marketing Manager and long-time Corvettes at Carlisle supporter. He's truly become a staple at our event each year. I recall shortly following my father's passing in 2004 the Corvettes at Carlisle event popped up quickly and I didn't know many of the Chevrolet team members. Harlan and I instantly hit it off when we met through his previous years of attending Corvettes at Carlisle. I recall looking at Harlan in 2004 and saying "you're my point guy for Chevrolet" and he smiled with his calm and very cool demeanor and said "no problem." I'm still grateful to this day for his countless hours of help in the early years while I was learning the ropes. If you haven't ever had an opportunity to speak with Harlan, please be sure to say hello – he's a great guy and his passion for the Corvette will instantly shine during your conversation. Harlan, thanks for all of your help through the many years! Corvettes at Carlisle wouldn't be the same without you.

CHIP MILLER

## ABOUT CHIP MILLER

Chip Miller was known worldwide for his resilient positive attitude, his passion for Corvettes, his tremendous personal Corvette collection and for creating the grandest Corvette event anywhere on the planet – Corvettes at Carlisle.

In December 2003, Chip was diagnosed with a little-known disease called Amyloidosis. Sadly, due to complications from the Amyloidosis, the world lost an incredibly special human being on March 25, 2004. Had Chip and his doctors been aware of the symptoms of the disease when they first presented, this legend might still be with us today.

## OUR MISSION

The mission of the Chip Miller Amyloidosis Foundation (CMAF) is to empower people with the knowledge and understanding of Amyloidosis for earlier detection, ensuring a better quality of life for those afflicted with the disease and to help science find the cures.

## ABOUT AMYLOIDOSIS

Amyloidosis occurs when enough abnormal protein, called amyloid, builds up in one or more organs to cause a malfunction. As an abnormal protein, amyloid originates in bone marrow. The heart, kidneys, nervous system and gastrointestinal tract are most often affected by the disease.

Signs and symptoms of Amyloidosis depend on the organs affected. The wide range of symptoms makes it difficult to diagnose.

## YOUR SUPPORT IS APPRECIATED

During Corvettes at Carlisle, you can support the CMAF by buying merchandise, making a donation or by attending the benefit dinner. Additional events take place throughout the year to support the Foundation. Please visit our website, [www.chipmiller.org](http://www.chipmiller.org), for more information about these events.

### MERCHANDISE SALES

You can buy merchandise at CMAF Hospitality in Building R during Corvettes at Carlisle.

### BENEFIT DINNER

This annual fundraising event is held on Friday evening during Corvettes at Carlisle at the Carlisle Expo Center. Enjoy a buffet-style dinner with beverage bar, the opportunity to mingle with Corvette dignitaries, several guest speakers, a silent auction, door prize and, of course, Corvettes!

Tickets are \$75 and a limited number will be sold at the door just before the event begins. You can pre-register online for next year and get your ticket for \$60 if purchased before the deadline.

## **CHIP'S CHOICE DISPLAY: GREENWOODS & GULDSTRANDS** LOCATED IN BUILDING T

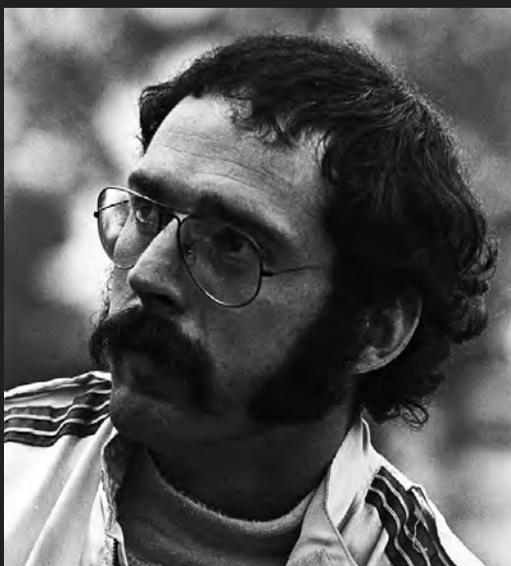

Chip Miller took great joy in hand-picking cars for a display he called Chip's Choice because they were just that, his choice. His son, Lance, has been proudly carrying on his dad's enthusiasm for this display with a new theme every year.

This year the Corvettes on display are customized by John Greenwood and Dick Guldstrand. These two men were pioneers in Corvette customization and

racing legends. They both made a tremendous impact but, sadly, both passed away in 2015.

"True Corvette legends don't come around often," said Lance Miller. "Every Corvette aficionado would agree that John Greenwood and Dick Guldstrand were certainly standouts within the Corvette community. These two gentlemen made the Corvette better during their lives," continued Miller. "They were both

aggressive on and off the track and not only enjoyed racing but also lived it. They worked hard to ensure the Corvette was at the front of the pack and I'm certain they're proudly looking down over what the Chevrolet team currently provides. Surely, they'd both be very proud of the new Corvette! My condolences to the Guldstrand and Greenwood families; may these two gentleman RIP," concluded Miller.

**JOHN GREENWOOD**  
• 1944-2015 •

John Greenwood was a drag racer as a teenager and grew up going fast. In the 1970s he managed to land a racing contract that helped propel him not only into the big time racing scene, but also put him in a position to build Corvettes configured for FIA endurance racing. It wasn't long before Greenwood Corvettes were racing at Le Mans, Daytona and Sebring. In 1974 Greenwood leveraged contacts within the hobby to build Corvettes that not only went fast, but also wowed onlookers. Greenwood's wide-bodies became American fan favorites, challenging the factory supported teams of Porsche and BMW that held a grip on GT racing and the growing IMSA series.

**DICK GULDSTRAND**  
• 1927-2015 •

From 1963 through 1965, Dick Guldstrand won three consecutive Sports Car Club of America Pacific Coast championships and set the Le Mans track record in 1966. That same year he finished first in his class in the Daytona 24 hour race. In 1968 he opened Guldstrand Engineering in Culver City, California and did work in the coming years for heavy hitters like James Garner, Bruce Springsteen, Nicolas Cage and Arnold Schwarzenegger. Guldstrand came up with out-of-the-box mechanical improvements that helped Corvettes handle better at high speeds and his efforts over the course of time landed him in the National Corvette Museum Hall of Fame in 1999.

### CHIP'S CHOICE #344

#### 1989 NASSAU GULDSTRAND CONVERTIBLE Charlie Budenz

Charlie purchased the "garage find" #003 super-charged Nassau convertible from the original owner in 2015. The vehicle has never been restored and has 77,000 miles. This is the first time the '89 vette will ever be on display.

### CHIP'S CHOICE # 345

#### 1990 GS90 GULDSTRAND COUPE Charlie Budenz

Charlie purchased this Corvette from its original owner in 2012 and then toured with Dick Guldstrand in 2013 in the vehicle. Charlie also led the parade at Monterey with this Corvette. It has never been restored and remains in its original condition.

### CHIP'S CHOICE #346

#### 1989 GS90 GULDSTRAND CORVETTE National Corvette Museum

In 1994, Corvette racing driver and tuner, Dick Guldstrand introduced his first and only coachbuilt

Corvette, the GS90. The car is based on the Corvette ZR-1 chassis and engine designed by Steve Winter. When the C4 ZR-1 was released, Guldstrand saw an opportunity to bring back the Grand Sport he used to race, pitching the concept of his radically restyled ZR-1 to Chevrolet. He requested several ZR-1s and a few million dollars. Instead he received one car and a blessing.

The GS90 was Guldstrand's ultimate 475hp version of the ZR-1, incorporating influences from the Grand Sports of the early 60s. Guldstrand left the ZR-1 cabin alone, concentrating instead on the chassis and engine development, and custom coach-built distinctive body.

The car was debuted at the L.A. Auto Show and had a price tag of \$134,500, and as a result, only six GS90s were built and sold.

### CHIP'S CHOICE #347

#### 1989 GS80 VAN HALEN GULDSTRAND CORVETTE Roger Abshire

The Guldstrand GS80 serial number #008 was originally built for rock singer Alex Van Halen. It was purchased in 1988 and it had a series #1 engine. In fact, it was the last series #1 engine built. When the oiling problems became public knowledge, Van Halen brought the car back for an upgrade to the series #2 engine.

Eventually, the car was sold. This next owner drove it and street raced it for a couple of years. The car was then sold to Chuck Forgey in Indiana. Chuck proceeded to use the car for racing up and down the middle of the U.S. for the next two years. He earned enough trophies to validate Guldstrand's expertise in building performance cars. He then sold the car to Roger Abshire in January of 2003.

## CHIP'S CHOICE #348

1965 GULDSTRAND CORVETTE  
Dan Denning

This was the last Corvette that Dick Guldstrand built. In 2009 Victoria Hearst discussed having an older body-style Corvette built on a newer frame. A 1965 was placed on a C4 frame from Newman Car Creations and was fitted with an LS1 engine. Guldstrand massaged the 346 ci. V8 to 400 hp and installed a four-speed automatic transmission since Hearst couldn't drive a stick. A good bit of fabrication and custom work went into this build.

1966 DEVELOPMENT L88 CORVETTE PENSKE  
RACER  
Kevin Mackay

PHOTO BY BILL ERDMAN

In 1965, Roger Penske was focused on winning Daytona and, through Zora Arkus-Duntov's recommendation, contacted Dick Guldstrand. During the race a collision damaged the front end, almost disqualifying it due to the lack of headlights. This was quickly fixed by duct-taping two heavy duty flashlights to what remained of the fenders. The team broke the GT record, achieving first in class and 11th overall.

After that big win, the car received a new paint job courtesy of its new sponsor, Sunoco, in time for the 12 hours of Sebring race. It led its class from start to finish and finished ninth overall. In addition, it was the first large-production car to win both Daytona

and Sebring in class back to back.

This car has been restored by Corvette Repair Inc. of Valley Stream, NY, to accurate configuration as it raced at the 1966 12 hours of Sebring as #9.

## CHIP'S CHOICE #350

SPIRIT OF LEMANS GREENWOOD CORVETTE  
Steve Goldin

The Spirit of LeMans widebody Greenwood Corvette was built in 1976. It was raced at the 24 Hours of LeMans, the world's most prestigious road race, that year and became the crowd favorite. John Greenwood qualified the Corvette 9th on the grid and was clocked on the Mulsanne straight at 217 mph! However, tire problems arose during practice and qualifying and at the 11-hour mark of the race, a rear tire blew and took the rear bodywork and fuel cell with it.

The Spirit of Lemans was raced during the 1976, 1977 and 1978 IMSA seasons then on the Trans Am circuit for a while. It changed hands a few times before Goldin Brothers Racing completely restored it in 1994.

## CHIP'S CHOICE #351

SPIRIT OF SEBRING GREENWOOD CORVETTE  
Steve Goldin

The Spirit of Sebring widebody Greenwood Corvette was built in 1975 for a customer in Pennsylvania. The owner never drove the car but financed a racing team during the late 1975 and 1976 IMSA road racing seasons.

It was featured in the March 1976 issue of Road & Track magazine with a street car versus racecar comparison. The Road & Track road test calculated 0

to 150 mph in 18 seconds!

The Spirit of Sebring is credited with the first major win for the Greenwood widebody Corvette at the November 1975 IMSA finale at Daytona. This win was especially rewarding as the car was brand new and had not previously been raced or tested.

In 1976, it was raced at the 24 Hours of Daytona and the 12 Hours of Sebring races. Though it qualified on pole for Sebring, it didn't complete either race. The racing season was wrapped up that year with a win at the Daytona Finale. Not only did driver, John Greenwood qualify on the pole, but he set a new track record and a new average speed race record!

After changing hands a few times, including a period of ownership by Paul Newman, it was sold in 1992 to its current owner, Goldin Brothers Racing.

### CHIP'S CHOICE #352

#### 1976 GREENWOOD CORVETTE Brad & Debbie Briscoe

This 1976 Greenwood Corvette was ordered from Greenwood by Jim Mancuso to be run as a Trans-Am car. The original stamps for SCCA and Trans-Am are still on the roll cage. It is "customer car" #010. Currently, the car has been torn completely down to nothing and has recently been rebuilt. This is the first place it's been shown since restoration.

### CHIP'S CHOICE #353

#### 1978 GREENWOOD TURBO GT Andy Rumford

This 1978 Greenwood Turbo GT was built by John Greenwood as only 1 of 43 customer cars produced

in 5 models. Greenwood incorporated his cutting edge aerodynamics and suspension technology from his wide-bodied racers into his street version cars. This Original Turbo GT model is serial number one of three built. This Corvette features an L82 engine producing 420hp and an AR T04 Turbo with 12 pounds of boost. Equipped with all original Turbo GT badging, only 10,500 original miles are on this '78 Greenwood.

### CHIP'S CHOICE #354

#### 1981 GREENWOOD DAYTONA TURBO National Corvette Museum

This 1981 Greenwood is one of five produced. It was ordered by Ferrari dealer, Rick Mancuso. Mancuso placed his own serial number on the vehicle, L.F.S.C #001, and sold it to Terry Carter, a serviceman stationed in California. Carter sold it to Dr. Marv Silverman of Beverly Hills. After several years of ownership he donated the car to the National Corvette Museum in 1994.

### CHIP'S CHOICE #355

#### 1981 GREENWOOD DAYTONA TURBO CORVETTE William & Mary Lou Valentine

This Greenwood is no stranger to Carlisle and has been on the Fun Field for many years, even on display inside Building T in 2004. It is number two of only four made. This car was built by John Greenwood as a copy of his Daytona race car in street version. Greenwood even signed the dash and air cleaner on this vehicle as did Zora Arkus-Duntov.

# 1966 CORVETTE 50TH ANNIVERSARY DISPLAY

## DISPLAY LOCATED ON ROWS IK & IL

Our 50th Anniversary display began in 2003 with a display that featured one Corvette from every year of production since 1953. In 2004, the display began to feature just the Corvettes that were celebrating their 50th Anniversary and this year it's the 1966.

Join us in celebrating the 50th Anniversary of the 1966 Corvette by checking out the display under the tents on Rows IK and IL and sharing your appreciation with the owners for taking part in the event. Now, let's turn back the clock and shine the light on the year 1966.

Back when Lyndon B. Johnson held office, the first Star Trek episode aired on television and Frank Sinatra won the album of the year award while

Chevrolet churned out more than 27,000 Corvettes.

The vehicles were made from September 1965 through July 1966 and were the first Corvettes to be mass-produced with a 427 cubic-inch engine. While the big block engine first appeared the previous year, it did not see popularization until '66. This year also saw the introduction of a few new paint colors including Laguna Blue and Trophy Blue. The Corvette script on the exterior was revised to a vertically elongated style. It appeared on the hood at the front driver's side in addition to the right rear for this year only. It received a new eggcrate grille insert to replace the previous horizontal bars and headrests became an option.

# THE CARLISLE QUEST

## SCAVENGER HUNT: FRIDAY & SATURDAY

Chip Miller loved everything about Corvettes – absolutely everything – and he had a dream. In 1960, the Corvette won its class during the 24 Hours of Le Mans race in France for the first time in history. Chip wanted to obtain this legendary Corvette from the racing team, restore it, take it to France and unite it with its drivers to celebrate the 50th Anniversary of that momentous win.

Finding the car after it disappeared for decades was a great day for Chip and everyone who knew how important it was to him. He had it restored to its race-day glory and was elated to see it come to fruition. Sadly, shortly after this portion of Chip's quest was complete, he was diagnosed with Amyloi-

dosis and passed away in 2004.

Knowing this quest was one of his father's biggest dream come true, award winning producer and director Michael Brown documented every step of the way. What resulted was an emotional account of Chip's dream, entitled "The Quest." 2016 marks the 5-year anniversary of this remarkable documentary! See the trailer online at <https://www.youtube.com/watch?v=PTfr6jaP1zl>.

We are pleased to have Michael Brown with us this weekend. Don't miss your opportunity to meet the man behind the film and get his autograph Friday or Saturday at 10 AM at the Chip Miller Amyloidosis Hospitality Area in Building R.

---

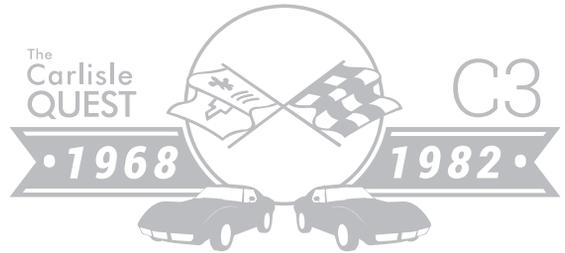

We invite you to share "The Carlisle Quest" with someone and experience the thrill of the hunt and the satisfaction of completing the journey. Shown here are seven clues (representing seven generations of Corvettes) to locations on the fairgrounds. Go to each, have your event guide stamped and at the end you'll receive a limited edition Carlisle Quest pin and can enter to win a 2017 Fun Field Registration. Each location is marked with a tall blue flag like the one shown above.

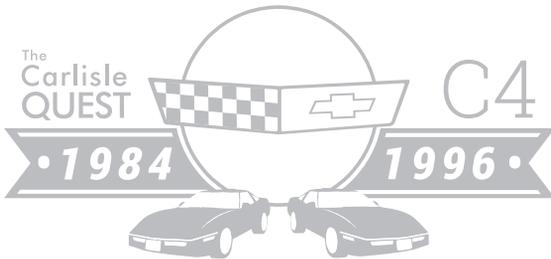

*Where we can learn how and what we can do; To maintain our classics and even the new!*

# The Car That Rocketed Roger Penske Racing To Fame

Kevin Mackay & Roger Penske

It's the 50th anniversary of Roger Penske Racing, the winner of the most championships in sports history. Featured here is the 1966 Development L88 Corvette originally owned by Roger Penske, the car that started his amazing career. It is nationally recognized as one of the most important Corvettes ever manufactured. This Corvette is the only "mid-year" to win first in class consecutively at Daytona and Sebring in 1966.

# \$ HELPFUL HINTS TO VENDING SUCCESS

We receive a number of observations and suggestions from vendors, event participants and buyers all the time. We also know that some vendors need to adjust to the ever-changing marketplace. In an effort to help everyone's success, we've compiled the following list of things you might consider.

- **DISPLAY:** *Is your display neat, organized and professional looking?* Help your customers see what you have to offer with an organized display including signs that clearly identify parts and prices.
- **PRICES:** *Are your prices competitive?* The days of overexcited, uneducated buyers are over. With the Internet at virtually everyone's fingertips, customers can quickly find what they want; but if you have it in front of them for a competitive price, they're likely to choose yours now since they can walk away with it.
- **INVENTORY:** *Are you selling what customers are buying?* Stocking your display with what's in demand is a sure-fire way to be successful. If you mostly sell parts for just a few very specific vehicles, consider diversifying your inventory.
- **PERSONAL TOUCH:** *Are you friendly and approachable?* Your customers may be more willing to spend their money with you if you are friendly and have a positive mental attitude.
- **PARTS HAULING:** *Do you tell your customers that parts hauling services are available?* Your customers may be more likely to make a purchase if they know they won't have to carry it to their vehicle. Just tell them to call 717-960-6429 to request the service. (We also offer on-grounds taxi service for our less mobile guests.)
- **Do you have business cards?** It's important to have business cards available for two reasons. One, it

gives a potential customer a reminder about your company and a way to contact you when they are ready to buy. Two, it helps your brand make an impact. Some booths simply display products but sales can take place after the event. Make sure your business cards are available to these customers.

- **Do you have overstock and limited operating capital?** Some vendors are hitting the liquid button on inventory/overstock. Be competitive.
- **Are you writing down your stock at the end of the year by adjusting its true value?** Several vendors talk about depreciating or writing down their stock value to make it on the back end with taxes at the year's end. (Consult your accountant.)
- **Are you taking advantage of Carlisle Events' vendor discounts?** Early renewals, buy 2 get 1 free, buy 1 get 1 free, multi-show, etc. – these specials are designed to save you money while creating greater earning potential. Call to see if you qualify.
- **Are you networking with fellow vendors?** Gather contact information, including email addresses, phone numbers and special interests. Good relations with fellow vendors can be a key factor in your success.
- **Are you returning your form to receive a free specialty listing in the event guide?** Our customer service staff get hundreds of questions during every event from customers looking for specific items. Take advantage of this free service!

Thank you for your continued dedication to vending with Carlisle Events. We are all in this together; your success is important to us.

# SOCIAL MEDIA

Connect With Us Online!

The social media world is evolving; don't get left behind! Carlisle Events is becoming much more active in our online campaigns and we want you along for the ride. We are giving you daily updates and entertainment on Facebook, Twitter, Instagram and more.

Have you ever wondered who is posting to the Corvettes at Carlisle Facebook page and inter-

acting with you? It could be one of three people: Lance Miller (Carlisle Events co-owner), Sarah Burkarth (Social Media Coordinator) or Jodi Morrison (Lance's assistant).

So far in 2016, the most popular post on the Corvette Facebook page was a "Throwback Thursday" photo of a couple sitting in their 'Vette on our Fun Field back in 2010 (see below).

The photo was seen by thousands

and hundreds more even shared the photo onto their own pages.

The Corvette Facebook page is currently in third place for "total likes" compared to the nine other Carlisle Events' pages, right behind the Import & Performance Nationals and the Ford Nationals page. Let's share our page, spread the word and bump ourselves into first place!

## ✓ 2015 CORVETTE AMERICAN FLAG

The 2015 edition of Corvettes at Carlisle had a patriotic theme complete with a United States flag created by strategically parking 153 Corvettes. The flag was comprised of 57 red Corvettes, 51 white ones, 35 blue ones, 10 silvers and two golds. The white stripes signify purity and innocence and the red signify bravery and valor. Old Glory is also home to 50 stars on a blue field representing vigilance, perseverance and justice. It took approximately four hours to set up and was a true salute to not only the USA itself, but to the Corvette, a car that's long been dubbed America's Sports Car.

In addition to 2015, the Corvette American flag display also took place in 2008 and 2010 and will be intermittently worked into the event plans going forward. So, why is this display such a frequently requested and popular aspect of Corvettes at Carlisle?

"Creating the American Flag out of Corvettes was a dream come true for me, literally," noted Corvettes at Carlisle Event Manager Lance Miller. "I woke up extremely early one morning with my mind going a mile a minute because my dream showcased a BIG American Flag made out of Corvettes. I knew it had to be done and we did it with the help of the Corvette community for the first time in 2008," continued Miller. "Often people would ask me to do it again and we did; then they asked again so we're doing it again." Miller concludes "I can't thank the Carlisle Events team enough for all the help they've provided to create such a display as it takes many hours to make it just right. I'd also like to thank each of the Corvette owners that are a part of the flag; obviously without them we couldn't make this dream display come alive."

### OFFICIAL GIVEAWAY SPONSOR

SPRING MOUNTAIN MOTOR RESORT & COUNTRY CLUB is the exclusive home to the Ron Fellows Performance Driving School. The Corvette school has been honored as "The Official High Performance Driving School of Corvette". The 332-acre driver's paradise boasts the longest road course in North America at over 6 miles in length. But Spring Mountain is much more. A tradition of excellence spanning two centuries ... in 1899, Charles F. Kerbeck, patriarch of the Kerbeck family and grandfather of the three brothers who are the present-day owners, began bringing his dream of providing quality transportation to the growing Philadelphia-area population.

In the beginning, horse-drawn carriages evolved into coaches powered by gasoline engines, which evolved into automobiles. Over a century later, the Kerbeck dealerships include 12 highly successful franchises, 11 different brands, and nine separate showrooms. It is one of the great American success stories.

In the early 1920s, Frank C. Kerbeck continued in his father's

tradition by opening an automobile dealership in Philadelphia and later expanded to New Jersey.

After Frank C. Kerbeck passed away in 1968, his wife, along with his eldest son Charles, operated the dealership. Shortly thereafter, Charles' two younger brothers, George and Frank, joined the business and the company began developing into the mega-dealership of today.

The Kerbeck dealerships are among the most successful in America. Among other accomplishments, Kerbeck Chevrolet in Atlantic City is currently celebrating their 22nd straight year as the world's largest Corvette dealership selling new Corvettes, an accomplishment of which they are very proud.

## MacMulkin Chevrolet

The second largest Corvette dealer in the country!
